

THE BUSINESS TRAVELLER

UPPER CLASS SUITE

At the touch of a button, Virgin Atlantic's latest innovation the Upper Class Suite flips over to become the biggest fully flat bed compared with any other airline's business class service.

- At 79.5" (202cm) long (82"/208cm on the upper deck), the bed is the longest in any class. Widthwise the bed increases to 33" (84cm) at the shoulders.
- The Upper Class Suite has full lumbar support and is covered with soft leather on one side, while on the reverse the bed is built of firm, highly supportive foams for maximum sleeping comfort. The Suite also comes with its own ottoman, which doubles as a seat for a guest. So business can be done with a colleague or a drink can be shared with a friend.
- Upper Class offers comfort and convenience all the way, from the complimentary chauffeur driven car service, to the onboard bar and inflight beauty therapy treatments*, to the award winning entertainment provided on your personal 10.4" wide screen TV.
- The Upper Class Suite, with the biggest fully flat bed in business class, is already available for you to try on all flights to New York (JFK & Newark), Boston, Washington, Orlando (Gatwick & Manchester), Caribbean, Los Angeles, San Francisco, Las Vegas, Dubai, Johannesburg, Shanghai, Tokyo, Hong Kong and Sydney. It is also available on selected flights to Miami, Delhi, Mumbai and Lagos, as the Suite continues to be rolled out.

* Available on most flights.

** For operational reasons we cannot guarantee that aircraft will not change without prior notice. Some aircraft will not be fitted with the Upper Class Suite.
